

Proposed 184 MHz AMR Band Plan

Segment (Not to scale)	Sharing Mode				Proposed Use
	Exclusive	Shared	Overlay	Retained	
183.500					Narrow Band Modes 8x25 kHz channels
1					
183.700					Retained for possible future expansion of Segments 1 or 3, and/or Exclusive Narrow Band use.
2					
183.900					Wide Band Modes Single 200 kHz channel
3					
184.100					Retained for possible future expansion of Segment 3 and/or Further Exclusive Wide Band use.
4					
184.300					Single User Proprietary system criteria applies.
5					
184.500					

Notes:

- Exclusive:** No other user in this segment in the UK

Shared: Channel sharing controlled by strict carrier to interference criteria.

Overlay: Co-channel users within the same operational area.
- Operation above 10m AGL with ERP exceeding 10mW is permitted in certain circumstances (MPT1601 Paragraph 3.1).
- Guard bands not shown, since MPT1601 does not actually define any!
