Consultation title	Improving spectrum access for Wi-Fi – spectrum use in the 5 and 6 GHz bands
Full name	Nicholas Woollard
Contact phone number	020 7706 5199
Representing (delete as appropriate)	Organisation
Organisation name	Joint Radio Company (JRC)
Email address	spectrum@jrc.co.uk

Confidentiality

We ask for your contact details along with your response so that we can engage with you on this consultation. For further information about how Ofcom handles your personal information and your corresponding rights, see [Ofcom's General Privacy Statement](#).

Your details: We will keep your contact number and email address confidential. Is there anything else you want to keep confidential? Delete as appropriate.	Nothing
Your response: Please indicate how much of your response you want to keep confidential. Delete as appropriate.	None
For confidential responses, can Ofcom publish a reference to the contents of your response?	N/A

Your response

Question	Your response
Question 1: Do you have any comments on our proposal to open access to the 5925-6425 MHz band for licence-exempt Wi-Fi use?	Confidential? – N JRC notes that the energy utilities operate licensed fixed links within the L6 GHz Band and these will need to be protected as primary licensed users of the spectrum. We encourage Ofcom to establish adequate provisions to address interference and implement an effective process to deal with any link degradation suffered by the energy sector subject to the “Polluter Pays” principle.
Question 2: Do you have any comments on our technical analysis of coexistence in the 5925-6425 MHz band?	Confidential - N No comment.
Question 3: Do you agree with our proposal to remove DFS requirements for indoor Wi-Fi up to 200mW from the 5725-5850 MHz band?	Confidential - N No comment.
Question 4: Do you have any comments on other options that may be available for Wi-Fi and RLANs within the 5 GHz band?	Confidential - N No comment.
