

JRC 2020 Seminar

JRC Annual Conference Thursday 15th October

Online: 13.00 hrs – 16.00 hrs

Building on previous JRC Policy Seminars at Churchill War Rooms, London Transport Museum & Imperial War Museum, JRC is hosting this year's Annual Operational Telecommunications Strategy Seminar as a Web Conference via Microsoft Teams in light of Covid-19 restrictions.

The event will bring Policy makers, Regulators and senior operational telecommunications managers from the electricity and gas sectors together to discuss industry / market developments intended to address Government's ambitious targets to deliver a net zero carbon economy.

'Digitalisation and the Net-Zero Agenda'.

Session 1 Starting at 13.00 hrs

Policy Perspective exploring Government / Regulatory Approach

An interactive session exploring Governmental / Regulatory policy interventions for the UK Energy Sector to deliver a net zero carbon economy with a focus on implications for operational telecoms.

Key strategic representatives will present and debate their individual viewpoints.

Break 14.30 – 14.45

Session 2 Starting at 14.45 hrs

Members Challenge and Solution session, Net-zero + new energy sources

A session allowing key players from the major Industry operators to respond to the challenges raised within the first session. Key initiatives, drivers and challenges will be explored.
